

The health and safety of our customers and our team is our highest priority. PanGlobal continues to monitor announcements and follow Alberta Health Services' protocol diligently. While our team is working remotely, we ask for your patience in replying to online ticket submissions via our SUPPORT tab and returning support calls. At this time, we expect shipments from PanGlobal to continue as usual. However, we advise all customers to allocate additional time to receive orders and check for delay announcements with shipping providers and Canada Post.
